EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Wray on April 6, 2004.

The application has been amended as follows:

Rewrite claim 15 as follows:

Claim 15 (currently amended). A method of assembling fuel cell stacks and/or piles of electrolysis cells wherein several assemblies comprised of a bipolar plate and an MEA in accordance with claim 1 are connected electrically in series by stacking.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach and/or suggest an assembly wherein the membrane and bipolar plate adjacent each side of a gas diffusion layer protrude beyond the periphery of the gas diffusion layer to form a circumferential marginal volume zone that is defined at a top, inner and bottom sides by the bipolar plate, so that the marginal volume zone is filled with a cured adhesive all the way to the defining faces of the membrane, bipolar plate and gas diffusion layer in such a way as to form a gap free and gas tight seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
